Introduction

Introduction

Following the implementation of ministerial decision 30 of 2017, which permits private medical facilities to conduct health checks for expatriates as part of the process for obtaining an official residency permit in Bahrain, accordingly we would like to inform you the following details.

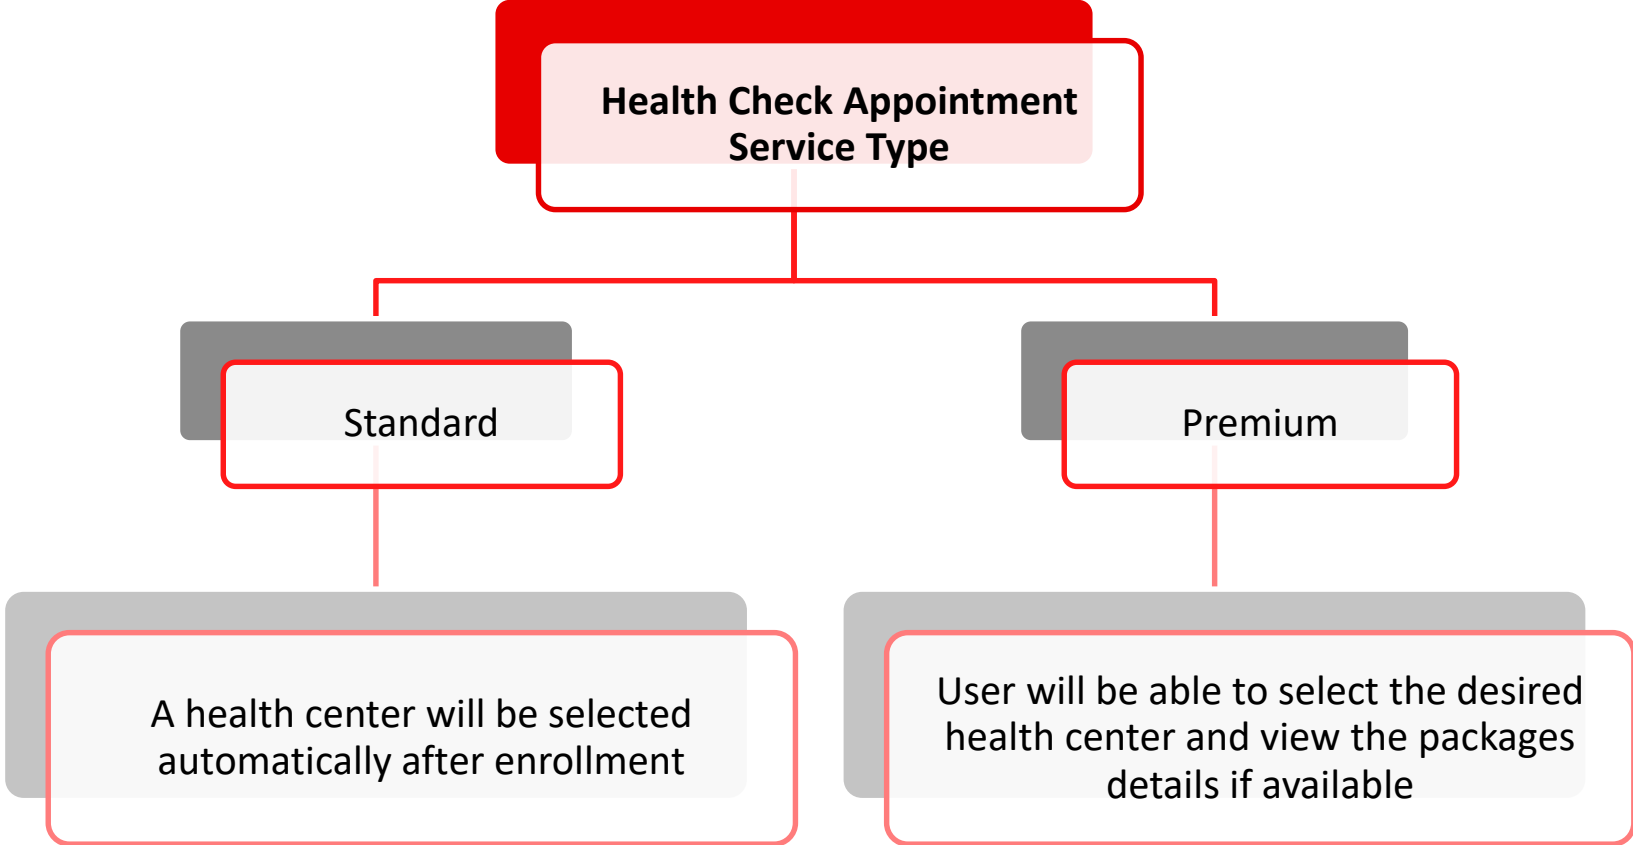

As of 12 November 2017, health checks must be conducted at approved private medical facilities-only rather than the AlRazi Centre, a government-run Centre which was previously responsible for conducting expatriate health checks. Please note that appointments prior to 12 November will be conducted at the AlRazi Centre. Any missed appointments after that date will have to be rescheduled at the private medical facilities.

For further information you may contact the Ministry of Health using the following details. Tel: 66399987 / 66399986 from 8am to 2pm Sunday to Thursday.
